METHVEN

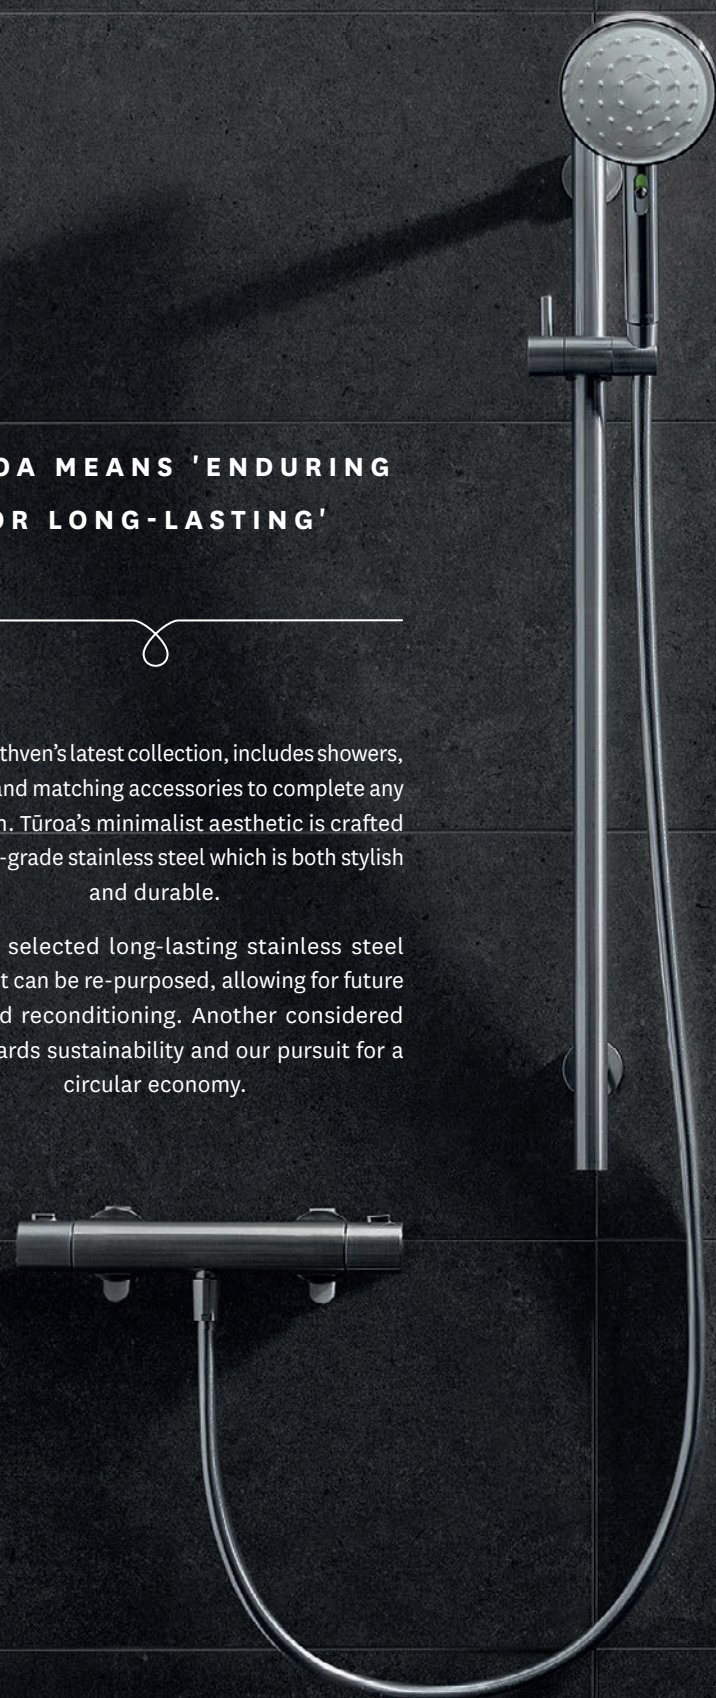

T Ū R O A

Introducing the new
Tūroa collection

**TŪROA MEANS 'ENDURING
OR LONG-LASTING'**

Tūroa, Methven's latest collection, includes showers, tapware and matching accessories to complete any bathroom. Tūroa's minimalist aesthetic is crafted from high-grade stainless steel which is both stylish and durable.

Methven selected long-lasting stainless steel because it can be re-purposed, allowing for future reuse and reconditioning. Another considered step towards sustainability and our pursuit for a circular economy.

VJET™ SHOWER DESIGN AND TECHNOLOGY

Inspired by familiar forms and materials, Tūroa's VJet™ shower features a modern minimalist aesthetic where technology and visual form complement one another.

Tūroa's cleverly hidden channels create spirals of water that flow through the nozzles across the entire shower head. Its smooth handset slider allows you to activate a seamless spray transition – personalised by you – from a firm, invigorating shower spray, to a gentle, enveloping warmth and everything in between. Whether you're in need of revitalisation, relaxation or simply getting clean, VJet™ is the first shower uniquely tailored by you.

Crafted from high-grade stainless steel, which is both stylish and durable, the Tūroa showers are designed to last and are supported by Methven's industry-leading lifetime warranty.

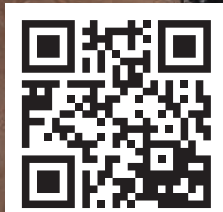

All of these qualities combined, add up to a champion; and as such, this shower is the winner of both the Australian Good Design Best in Class and The Red Dot Product Design Award 2018 - reaffirming Methven's global leadership in shower design and technology.

RADIANT METALLIC FINISHES

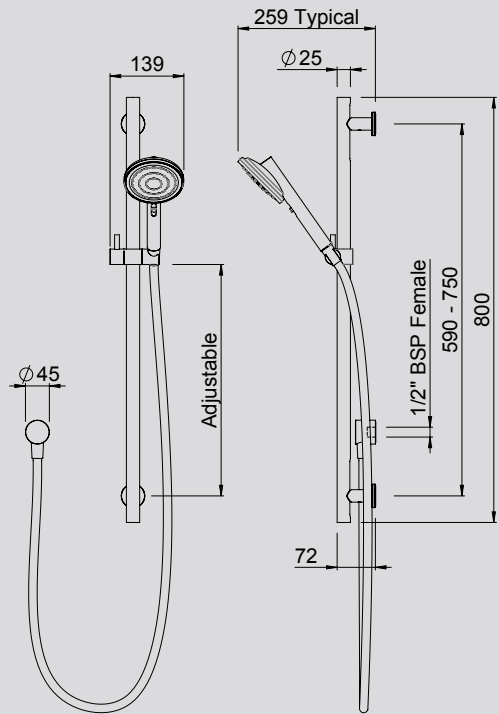

The new Methven PVD finish is decorative and hard-wearing. Its application is not only strong, its fine detail also allows the beauty of the machined stainless steel to shine through.

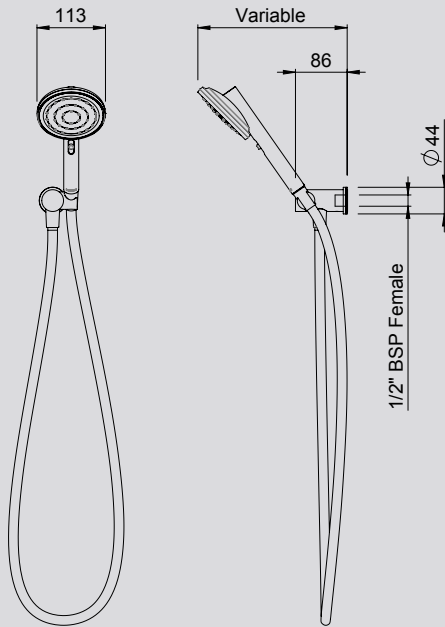

Available in gun metal black, graphite and gold, with matching consistency across the collection's tapware, showers and accessories - making designing your bathroom a cinch.

ICONS MENU

To help you to identify important product features, we have placed icons beside each product. Refer to this key to find out the meaning of each icon.

NEW PRODUCT

HIGH PRESSURE DESIGN

Suitable for high pressure installations above 1.0 bar.

FLEXIBLE RAIL INSTALLATION

Adjustable mounting brackets for easy retrofit to existing installation holes.

CONTROL WATER DIRECTION

The directional aerator includes a built-in swivel that enables you to manually adjust the direction of your water and minimise splashback. (Perfect for taps that sit directly over the sinkhole).

VARIABLE SPRAY

Variable spray at your control. From a firm invigorating spray to relaxing and everything in between.

THE METHVEN GUARANTEE

The warranty statement shall apply to all Tūroa showers, tapware and accessories supplied by Methven. For complete warranty terms and conditions visit methven.com

We reserve the right to make alterations in engineering, dimensions, design and product lines without prior notice.
